

It is important
to earn enough money.

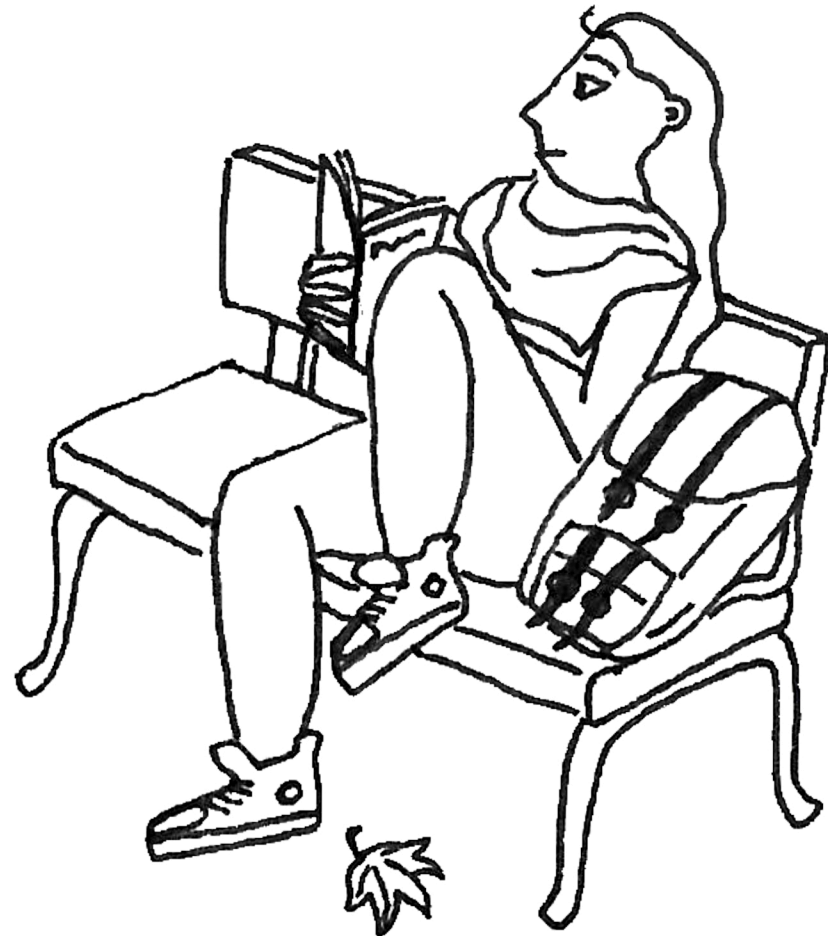

I don't fulfill tasks
which I don't like.

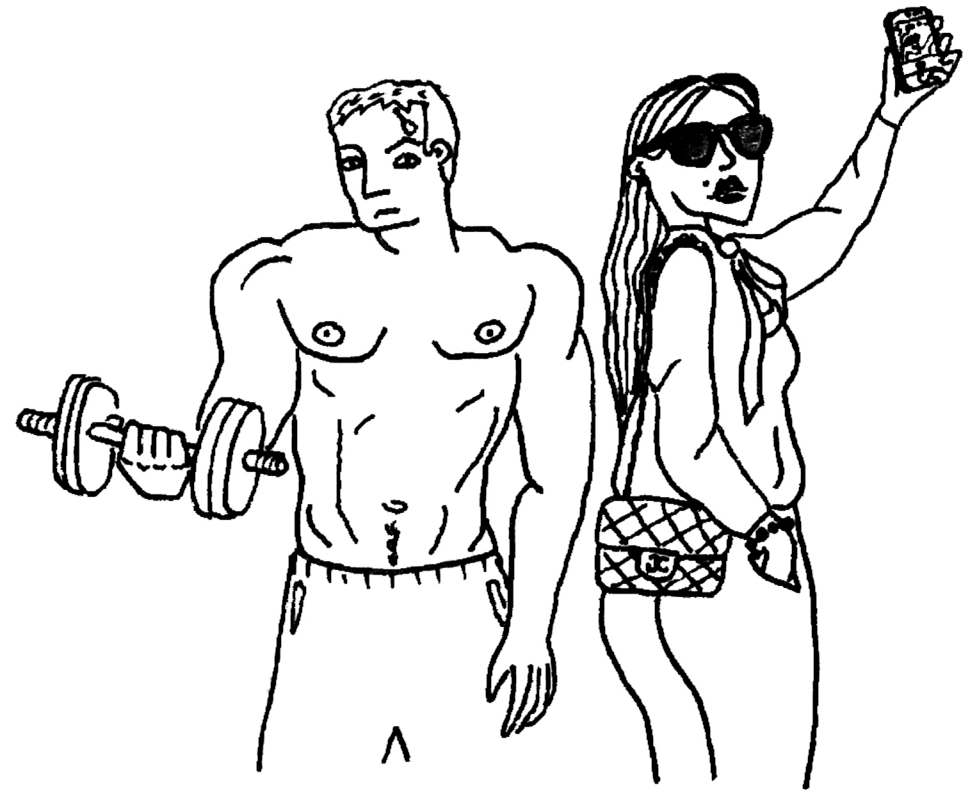

Doing the laundry doesn't count as work, as it's being done by the washing machine.

If I do something only for myself,
I have a bad conscience.

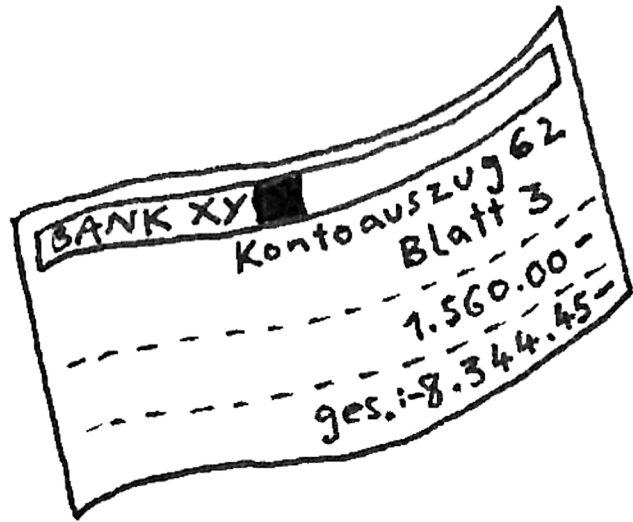

I can become rich and famous
without an education.

I can achieve
everything I want,
if I put in enough
effort.

Making debt is part of life.
